INTRODUCTION

The Center for Fiscal Transparency and Public Integrity is a non-partisan and nongovernmental organization established in 2016 and started operations in 2019 to promote good governance by strengthening systems and mechanisms that enhance transparency and accountability of public institutions at the national and sub-national levels. Transparency and Integrity Index (TII) was conceived to promote transparency, monitor public sector expenditure, and strengthen the integrity mechanisms of public institutions.

Transparency is a vital principle of good governance that is crucial for corruption prevention in Nigeria. When actions and decisions at all government levels are open to public scrutiny, it becomes significantly harder for corrupt practices to go unnoticed. Transparency ensures that public officials are held accountable for their actions, as citizens, and can monitor and report any irregularities. Transparency enhances accountability and deters corrupt behaviour by increasing the opportunities of detection and punishment, thereby fostering a culture of integrity within public institutions.

Transparency enhances democracy by promoting informed citizen participation. When citizens have access to information about government activities, they can make better decisions during elections and hold their representatives accountable. Informed participation is essential for a functioning democracy, as it ensures that elected officials truly represent the will of the people. Additionally, transparency is a critical binding instrument that creates and builds trust between the government and its citizens, which is vital for the legitimacy and stability of democratic institutions.

Good governance is also significantly bolstered by transparency. It leads to more efficient and effective public service delivery by reducing opportunities for mismanagement and ensuring that resources are used appropriately. Transparent processes in public procurement, budgeting, and policy implementation help to eliminate waste and ensure that public funds are directed towards their intended purposes. This not only improves the quality of public services but also enhances the overall development and economic growth of the country.

THE OBJECTIVE OF THE TRANSPARENCY & INTEGRITY INDEX

TII is geared towards assessing the openness and transparency of public institutions by evaluating the publication of vital information relating to good governance that is statutorily supposed to be within the public domain on the website(s) and portal(s) of public institutions. Public institutions are statutorily mandated to publicize diverse classes of information regarding their activities, in line with the applicable legal framework guiding their operations.

The project aims to evaluate the publication of information that is statutorily supposed to be within the public domain. This involves information on budgeting, audit, procurement, recruitment, procurement, and utilization of tools that aid the engagement of citizens. This initiative will assess the compliance of public institutions with national laws, policies and guidelines, and other international agreements to which Nigeria has made commitments.

INTERNATIONAL:

United Nations Convention Against Corruption, 2004

In line with Nigeria's commitment under the convention;

Article 5 encourages the promotion of effective practices aimed at the prevention of corruption through the development and implementation of a comprehensive anti-corruption strategy; proper management of public affairs and public property; coordination of anti-corruption policies and strategy.

Article 7 encourages Nigeria to strengthen systems for the appointment of public officials based on the principles of efficiency, transparency and endeavor to adopt, maintain and strengthen systems for the *recruitment, hiring, retention, promotion* and retirement of civil servants.

Article 8 encourages public officials to adhere to honesty and integrity in the fight against corruption.

- Adopt measures to facilitate the reporting of corrupt practices by public officials

Article 9 on public procurement and management of public finances; encouraged Nigeria to take necessary steps to establish an appropriate procurement system, based on transparency, competition and objective criteria in decision-making, that are effective, among other things, in preventing corruption.

Article 9(a), 9(b) requires that the established appropriate system of procurement shall address:

- The public distribution of information relating to procurement procedures and contracts, including information on invitations to tender and relevant or

pertinent information on the award of contracts, allowing potential tenderers sufficient time to prepare and submit their tenders.

- The establishment, in advance, of conditions for participation, including selection and award criteria and tendering rules, and their *publication*

Article 10 encourages Nigeria to adopt measures to enhance transparency in public administration in a bid to combat corruption.

- Ensure that government websites meet global standards of accountability.
- Create a platform for citizens' engagement.

Article 12 encourages the promotion of transparency and standards to safeguard the integrity of private institutions.

- Adopt measures to prevent corruption in the private sector.
- Adopt measures to promote transparency and integrity of private institutions.
- Adopt measures to prevent abuse in the granting of licenses.

Article 13 encourages the participation of civil society in the prevention and combatting of corruption.

- Adopt measures to report activities in the reduction of corruption.
- Adopt measures to ensure the anti-corruption activities of public institutions are in the public domain.

Article 15 encourages adoption of measures to prevent bribery of public officials.

Article 32 encourages measures on whistle blowing on matters related to corruption.

African Union Convention on Preventing and Combating Corruption, 2006

In line with Nigeria's commitment under this convention, Article 7(4) required that Nigeria commit itself to ensure transparency, equity, and efficiency in the management of tendering and hiring procedures in the public service.

Nigeria's Open Government Partnership Action Plan II

The Open Government Partnership (OGP) is an international multi-lateral instrument focused on improving transparency, accountability, citizen participation and responsiveness to citizens through technology and innovation. Nigeria is currently implementing 16 commitments from their 2019-2022 OGP action plan. The Nigeria OGP action plan II (which we will use for this research) was built around seven thematic areas. It effectively deals with matters of transparency in ***budgeting, procurement, taxation and natural resource governance, corruption, asset recovery management, freedom of information, communication channels between citizens and government, service delivery and inclusion of under-represented groups in government.***

Sustainable Development Goal 16

Goal 16 of the Sustainable Development Goals (SDGs) is about peace, justice and strong institutions. The goal aims to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. In this project, we refer to target 16.6, 16.7, and 16.10, which are to:

- Develop effective, accountable and transparent institutions at all levels.
- Ensure responsive, inclusive, participatory and representative decision-making at all levels.

- Ensure public access to information and protect fundamental freedoms in accordance with national legislation and international agreements.

Convention on the Elimination of All Forms of Discrimination Against Women

In line with Nigeria's commitment under this convention, Article 11(1), 11(1)(a), and 11(1)(b) encouraged Nigeria to take appropriate measures to eliminate discrimination against women in the field of employment. Specifically, to ensure that women are afforded the same right as men, in particular:

- The right to work as an inalienable right of all human beings.
- The right to the same employment opportunities, including applying the same criteria for selection in matters of employment.

Freedom of Information Act, 2011

Under the Freedom of Information (FOI) Act, there is the mandate of proactive disclosure of public institution's information. The Act requires PI to disclose diverse classes of information proactively and records detailed in Section 2 of the Act. For the purpose of this project, we refer to section 2(3), 2(3)(a), 2(3)(c)(iv), 2(3)(c)(v), 2(3)(c)(vi), 2(3)(e)(i), 2(3)(e)(ii), and 2(5) of the Act. The sections specifically mandated PIs to:

- Publish a description of the organization and responsibilities of the institution, including details of the programs and functions of each division, branch and departments of the institution.
- Publish factual reports, inspection reports, and studies whether prepared by or for the institution.
- Publish information relating to the

receipt or expenditure of public or other funds of the institution.

- Publish the names, salaries, titles and dates of employment of all employees and officers of the institution.
- Publish a list of files containing applications for any contract, permit, grants, licenses or agreements.
- Publish reports, documents, studies, or publications prepared by independent contractors for the institution.
- Update and review information required to be published under this section periodically.

Evidently, Section 2(4) of the Act mandates Public Institutions (PIs) to ensure that the aforementioned information is widely disseminated and made readily available to the public through various means, including print, *electronic and online sources*, and at the offices of such public institutions.

Fiscal Responsibility Act, 2007

Under this Act, the federal government is mandated to make timely disclosure and wide publication of all transactions and decisions involving public revenue and expenditure for transparency and accountability. Specifically, Section 48(1) and 49(1) mandates the federal government to:

- Ensure full and timely disclosure and wide publication of all transactions and decisions involving public revenues and expenditures and their implications for its finances.
- Publish their audited accounts not later than six months following the end of the financial year.

Executive Order No. 001, 2017

Executive order 001, on promoting transparency and efficiency in the business environment, mandated all public MDAs to publish requirements for obtaining products and services within the MDAs scope of responsibility. Part 1 of the Order clearly states that MDAs should publish, among other things, permits and licenses. The Order further instructs the MDAs to publish the list on its website within 21 days from the date of issuance of the Order.

Discrimination Against Persons with Disabilities (Prohibition) Act, 2018

While addressing opportunities for employment for persons with disability, Section 29 of this Act *encouraged* all employers of labour in public organization to have persons with disabilities constituting at least 5% of their employment.

Federal Character Principles

Part 1&6 of the guiding principles and formulae for the distribution of posts, as stated by the Federal Character Commission, states that:

- Each state of the Federation and the Federal Capital Territory shall be equitably represented in all national institutions and in public enterprises.
- Each state shall produce 2.5% of the total workforce in any federal

establishment, while the FCT shall produce 1%.

In the procedure for recruitment into the Federal Civil Service, as stated by the FCC, part 3(6) encouraged the PIs to give adequate consideration to gender representation and physically challenged.

Framework and Guidelines for the Use of Social Media Platforms in Public Institutions, 2019

The Framework and Guidelines were issued by NITDA and aimed at providing guidance on the use of social media within the PIs' communications environment to improve government transparency, participation, and interaction with the public. The guidelines encouraged PI to develop and professionally maintain a Social Media Account. In Part 2.9 of the guidelines, PIs are required to set up mechanisms to institutionalize social media within their structure.

EVALUATIONS

In view of the laws, regulations, agreement and commitments, the CeFTPI identified five (5) thematic areas and twenty-nine sub-variables which the evaluation and assessment of the public institution's websites will be conducted. They are; Financials, Procurement, Human Resources, Control of Corruption and Citizens Engagement

PERCENTAGE WEIGHT

The variables Financials, Procurement, Anti-Corruption, Citizens Engagement, Human Resources and Inclusion were allotted 20% each. These variables have been selected based on their importance in addressing integrity in the public sector.

Financials = 20%

Procurement = 20%

Human Resources and Inclusion = 20%

Control of Corruption = 20%

Citizens Engagement = 20%

SCORING CRITERIA

A score was allocated to each variable, and each sub-variable was ascribed a score, based on the number of sub-variables under each variable. This was achieved by simple division of the total obtainable score by the number of sub-variables to arrive at the aggregate score. Consequently, the summation of the sub-variables under each variable was rescaled to give score

obtained/100 points. This simple arithmetic formula was adopted to make the report simple to understand. The scoring criteria are illustrated in the tables below:

ASSESSMENT CRITERIA

A. FISCAL TRANSPARENCY

Fiscal transparency is an essential aspect of entrenching transparency in the public sector. It entails the timely disclosure of budgetary and other financial documents that explain the financial position of public institutions. The International Monetary Fund (IMF) defines fiscal transparency as "the comprehensive, clarity, reliability, timeliness and relevance of public reporting on the past, present and future states of public finances". The requirement for fiscal transparency involves having budgets documents that are complete, accurate, reliable and available in the public domain.

Under fiscal transparency, a variable and seven (7) sub-variables are identified. Which are as follows:

Variable	Sub-Variables
<i>Financials</i>	Budget Allocation of the Last Eight Years (BA8)
	Budget Released of the Last Eight Years (BA8)
	Budget Implemented Reports of the Last Eight Years (BI8)
	Revenue Generated in the Last Eight Years (RG8)
	Revenue Remitted to Government in the Last Eight Years (RRG8)
	Revenue Retained in the Last Eight Years (RR8)
	Auditor General's Audit Report of the Last Eight Years (EA8)

The Financials variable seeks to evaluate the publications of MDAs financial documents. Section 2(3)(c)(v) of the Freedom of Information Act, 2011 requires public institutions to publish information relating to the receipt or expenditure of public or other

funds of the institution. Also, sections 48(1) and 49(1) of the Fiscal Responsibility Act, 2017 mandates the Federal Government to ensure –

- I. complete and timely disclosure.
- II. comprehensive publication of all

transactions and decisions involving public revenues and expenditures and their financial implications; and

- III. publish audited accounts not later than six (6) months following the end of a financial year.

The sub-variables are explained below.

- i. *Budget Allocation of the Last Eight Years (BA8)*: Budget documents that are complete and accurate should be available on the website of the MDAs
- ii. *Budget Implementation Reports of the Last Eight Years (BI8)*: The budget performance reports portray the actual financial position of an institution. The performance reports are published every quarter. The implementation reports of each budget cycle should be available on the website of the MDAs.
- iii. *Budget Released of the Last Eight Years*

(BR8): Budget Released documents with the actual amount released that are complete and accurate should be available on the website of the MDAs

- iv. *Auditor General's Audit Report of the Last Eight Years (EA8)*: The report of the Auditor-General should be readily available on the MDAs' websites
- v. *Revenue Generated in the Last Eight Years (RG8)*: The revenue generated for the last eight years should be readily available on the MDAs' websites
- vi. *Revenue Remitted to Government in the Last Eight Years (RRG8)*: The amount of revenue remitted to government for the last Eight years should be readily available on the MDAs' websites
- vii. *Revenue Retained in the Last Eight Years (RR8)*: The amount of revenue retained for the last eight years should be readily available on the MDAs' websites

B. OPEN PROCUREMENT

Transparency in procurement is a cardinal pillar in fighting corruption. It entails publicizing detailed information relating to the procurement process. The requirement for open procurement is for MDAs and other government institutions to publicize, among other information, tender adverts, method of

application for contracts, bidding process, and other detailed information on the awarded contracts, the status of the contracts and contractors.

Under open procurement, a variable and four (4) sub-variables are identified. They are as follows:

Variable	Sub-Variables
Procurement	Advertisement of Tender for contracts awarded in the Last Eight Years (AT8)
	Procurement Records of the Last Eight Years (PR8)
	Procurement Implementation Reports of the Last Eight Years (PIR8)

The Procurement variable seeks to evaluate the publication of procurement information. There is a guiding principle for open procurement to which MDAs are expected to adhere to. Section 2(3)(e)(i) of the Freedom of Information Act, 2011, requires public institutions to publish a list of files containing applications for any contract, permit, grants, licenses or agreements. Also, Executive Order 001 on Promoting Transparency and Efficiency in the Business Environment, 2017, mandated all MDAs to publish requirements for obtaining products and services within MDAs scope of responsibility.

published on their website. This will enable the public to have full knowledge of the procurement activities of the MDAs.

In this regard, four (4) sub-variables are identified to wit:

II. Procurement Records of the Last Eight years (PR8)

MDAs should publish their procurement records, with detailed explanations on awarded contracts, contracts status, and details of the contractors. This should be available to ensure a transparent procurement process and enable public scrutiny.

I. Advertisement of Tender for contracts awarded in the Last Eight Years (AT8)

MDAs should ensure that Tender adverts are

III. Procurement Implementation Reports of the Last Eight Years (PIR 8)

MDAs should publish procurement implementation/performance reports on their website. This will ensure integrity in the procurement implementation process.

c. Human Resources and Inclusion

Human resources variable seeks to evaluate the publication of diverse classes of information. Section 2(3) (c) (vi) of the Freedom of Information Act, 2011 requires public institutions to publish the names, salaries, titles, and dates of employment of all employees and officers of the institution. Section 29 of the Discrimination Against Persons with Disabilities (Prohibition) Act, 2018, encourage all employers of labour in a public organization to have persons with disabilities constituting at least 5% of their employment. Also, in the procedure for recruitment into the Federal Civil Service, as

stated by the FCC, part 3(6) encourages the PIs to give adequate consideration to gender representation and physically challenged.

The following sub-variables are identified –

- (I) *Recruitment Information of The Last Eight Years (R8)*: Recruitment into the federal civil service should be based on stipulated laws and guidelines. MDAs should publish information relating to their recruitment exercises on their websites.
- (II) *Recruitment Policy (RP)*: MDAs should

have a policy stating how they conduct recruitment, and the policy should be available on their websites.

- (III) *Number of Personnel (NP)*: Number of staff of the MDAs should be disclosed on the MDAs' websites.
- (IV) *Information and Date of Promotion Exercises of Last Eight Years (P8)*: Promotion should be based on laid down criteria and guidelines. MDAs should disclose on their websites the date of their promotion exercises, and the list of those promoted, and the requisites of selection of the promoted candidates.
- (V) *Sex Distribution (SD)*: To ensure equal opportunity irrespective of gender,

MDAs should disclose the sex distribution of their staff on their website.

- (VI) *Quota System (Qs)*: Recruitment must follow the federal character principle. MDAs should disclose the demographic distribution of their staff and management positions on their website to ensure that all geo-political zones are equally represented.
- (VII) *Disability (D)*: MDAs should disclose the number of special persons among their workforce.
- (VIII) *Updated Organisational Chart (UOC)*: The organisational updated management Chart of the MDAs should be available on the website.

D. Control of Corruption

Fighting corruption and bribery in all its ramifications ought to be among the cardinal responsibility of all institutions. The anti-corruption variable seeks to evaluate the publication of policies and guidelines for fighting corruption in MDAs and other government institutions.

In this regard, five (5) sub-variables are identified. They are as follows:

I. Anti-Corruption Policy (AC)

MDAs should have a comprehensive anti-corruption and anti-bribery policy published on their websites. This will demonstrate that MDAs have zero tolerance for corruption.

II. Anti-Bribery Policy (ABP)

MDAs should have an anti-bribery policy

published on their websites. This will demonstrate that MDAs have zero tolerance for bribery.

III. Whistleblowing Policy

MDAs should have a well-developed Whistleblowing policy and mechanism for reporting corruption and bribery

IV. Conflict of Interest Policy

MDAs should have a comprehensive well-developed conflict of interest policy published on their websites.

V. Control of Corruption Implementation Report

MDAs should have a control of corruption implementation report published on their websites.

Variable	Sub-Variables
Control of Corruption	Anti-Corruption Policy (AC)
	Anti-Bribery Policy (ABP)
	Whistleblowing Policy
	Conflict of Interest Policy
	Control of Corruption Implementation Report

The anti-corruption variable seeks to evaluate and promote the culture of ethics and values that help prevent, detect, and

investigate the risk of corruption in the public and private sectors.

SCORING METHOD

Variable	Sub-Variable	Research Question	Score Key	Total Obtainable Score
Control of Corruption	Anti-Corruption Policy (AC)	Does the institution have an anti-corruption policy on its website?	Available = 4	4
			Not Available = 0	
			Total = 4

	Control of Corruption Implementation Report	Does the institution publish control of corruption implementation report on its website?	Available = 4 Not Available = 0 Total = 4	4

E. Citizens Engagement

Another important aspect of good governance is providing an open environment for the participation of citizens in decision-making processes. The

contributions of citizens usually play an important role towards entrenching transparency and accountability in public institutions. MDAs are expected to provide an open environment for engaging citizens.

Variable	Sub-Variables
Citizens Engagement	Website Interactive Section (WIS)
	Institutional Email
	Email Response
	Social Media Accounts (SMA)
	Annual Report of the Last Eight Years (AR8)

The citizens' engagement variable seeks to evaluate the provision of tools and mechanisms that facilitate the engagement of citizens. Section 2(3)(e)(ii) and section 2(5) of the Freedom of Information Act, 2011 requires public institutions to:

- (a) Publish reports, documents, studies, or publications prepared by independent contractors for the institution.
- (b) Update and review the information required to be published under these sections periodically.

Also, in the Framework and Guidelines for the Use of Social Media Platforms in Public Institutions, 2019, public institutions are required to set up mechanisms to institutionalise social media within their structure.

Under this variable, the following sub-variables are identified:

- (I) *Website Interactive Section (WIS)*: MDAs should provide tools and mechanisms to facilitate citizen engagement on their website. The tools should comprise complaint and response mechanisms like feedback forms, satisfaction questionnaires, chat areas, and newsletters.
- (II) *Institutional Email*: MDAs and other

institutions of government should have an official email provided on their websites.

- (III) *Email and Response*: The emails should always be functional.
- (III) *Social Media Accounts (SMA)*: MDAs should have a social media account that will enable engagement with a wide range of citizens and facilitate the prompt dissemination of information on the MDAs' programmes and activities.
- (IV) *Annual Report of the Last Eight Years (AR8)*: MDAs and other government institutions should publish a summary of their activities on their websites as required by the Freedom of Information Act.

SCORING METHOD

Variable	Sub-Variable	Research Question	Score Key	Total Obtainable Score

The table presented provides a detailed overview of the institutional rankings, with the National Oil Spill Detection and Response Agency securing top position with an impressive score of 77.92%. The Nigerian Investment Promotion Commission follows closely in the 2nd position with a notable score of 71.53% (the same position it secured in 2023 but this time with a higher score), while the Development -Bank of Nigeria hold the 3rd position with a score of 60.17%. The Nigerian Institute of Advanced Legal Studies claims the 4th spot with a commendable score of 44.93%, and the Bank of Industry holds the 5th place with a score of 39.43%. The Nigerian Deposit Insurance Corporation secures the 6th position with a score of 37.98%, and the Nigerian Electricity Regulatory Commission occupies the 7th position with a score of 37.24%. The Tertiary Education Trust Fund occupies the 8th position with a score of 34.64%, while the Central Bank of Nigeria came 9th with a score of 32.79%. Finally, the Nigeria Export-Import Bank achieves the 10th rank with a score of 32.00%. These scores provide a comprehensive evaluation of the institutions' performance, with the Nigerian Oil Spill Detection and Response Agency emerging as the top performer.

A total of one hundred and fifty-one institutions, representing 195 of the total institutions assessed, scored between 8.00-0.31%; they include Abubakar Tafawa Balewa University, Bauchi, Auchi

Polytechnic, Edo, Gurara Dam Management Agency, Ministry of Petroleum, National Defence College, National Hospital, National Industrial Court, National Mathematical Centre, Pharmacy Council of Nigeria, Voice of Nigeria, Office of the Head of the Civil Service, Federal Medical Centre, the Nigerian Defence Academy, Kaduna, among others. Meanwhile, twenty-six institutions did not conform to TII variables, some of which are: Ministry of Mines and Power, FCE Okene, National Board for Arabic and Islamic Studies, Federal College of Forestry and Mechanization, Afaka, Kaduna, Nigerian Coal Corporation, Office of the Accountant General of the Federation and Office of the Secretary General of the Federation among others.

In general, there has been a downward slide from the improvement in performance of institutions this year, compared to 2023. While the highest score achieved in 2024 (77.92%) is higher than that of 2023, which stood at 72.26%, only the first two ranked institutions namely the National Oil Spill Detection and Response Agency (77.92%) and the Nigerian Investment Promotion Commission (71.53%) had excellent (70-100) scores. The next best ranked 3rd, Development Bank of Nigeria had very good (60-69) performance, scoring 60.17%, while the remaining institutions (509) representing 99.4% of the assessed institutions had very poor score of between 0-39.43%.

This section presents the ranking of the states. All the thirty-six (36) and the FCT states are assessed based on the TII variables for states.

The table offers a comprehensive portrayal of state rankings in terms of compliance with the TII (Transparency and Integrity Index) variables. The data reveals that, Kaduna, Kano, and Kogi States occupy the foremost positions as the three topmost compliant states, with Kaduna State securing the highest score at 51.42%, earning it the 1st position. Kano and Kogi States follow closely, achieving scores of 35.89% and 32.84%, thereby occupying the 2nd and 3rd positions respectively. On the other hand, Taraba State emerges at the 35th position with a score of 12.00%, while Plateau and FCT-Abuja trail behind at 36th and 37th positions, garnering scores of 8.72% and 2.58%, respectively. These three (the 2 states and FCT) are positioned at the lower end of the compliance spectrum, signifying their comparatively weaker observance to the TII variables.

Furthermore, it is noteworthy that the TII score for the year 2024 has witnessed a downward spiral, descending from 61.32% to 51.42% in the current assessment period.

The tables for LGAs presents a comprehensive portrayal of LGAs rankings in terms of compliance with the TII (Transparency and Integrity Index) variables. A total of Two Hundred and Thirty-One LGAs were available for assessment. This is a massive improvement from the paltry seven (7) LGAs that had functional websites for assessment in 2023. From the data available on the table, about thirty-four (34) LGAs namely Boki, Obudu, Abi and others had score of 88.88% and were ranked 1st respectively, while the lowest ranked LGAs such as Logo, Tarka, Ushongo and others

scored 0.74% and ranked 203. When it comes to compliance with TII variables, all LGAs scored 0.00% in the critical variables such as open procurement and control of corruption, except in the financial, human resources and citizens engagement. It is noteworthy that, with the number of LGAs that were available for assessment and the attainment of Local Government Autonomy soon to be operational, there is cautious optimism that, there would be improvements in the coming year.
